

Title: Lipstick at school

Source: unknown

According to a news report, a certain private school recently faced the question of what to do about 12-year-old female students applying lipstick in the toilets. The school saw nothing wrong with the girls wearing lipstick, but after applying it the girls would press their lips to the mirrors, leaving dozens of little lip prints.

Every night the janitor would remove the marks, but the next day they would reappear. Finally the Principal decided that something had to be done. She called all the girls into the toilets, along with the janitor. She explained the problem and, to demonstrate how difficult it was to clean the mirrors, she asked the janitor to show the girls how much effort was required to clean the mirrors.

Taking a long-handled squeegee, he dipped it in the toilet and wiped the mirror clean. Since that day there have been no lip prints on the mirrors at that school!
